Laboratory Results Report

573-751-3334

Patient [REDACTED]	Birth Date and Gender [REDACTED] Male	Client Reference	Accession # 607502
SEDALIA, MO 65301	Collected 2022-01-11	Received 2022-01-12 07:51	Project
Report To PETTIS COUNTY HEALTH DEPARTMENT 911 E 16TH ST SEDALIA, MO 65301	Provider and Phone Number SHAFFIEY, ASSAD 660/827-1130		
	Sample Type and Source Serum		
	Sample Note(s)		

ADDITIONAL SAMPLE INFORMATION

HIV Rapid Testing: Not Provided
Sex assigned at birth: Male
Medical Record/Chart Number: Not Provided
Medicaid Number/DCN: Not Provided

County: PETTIS
Insurance Information: Uninsured
Patient Pregnant: No

RESULTS OF ANALYSIS - FINAL REPORT

TEST	RESULT	ANALYSIS NOTE(S)
Syphilis RPR, Flocculation RPR	Non Reactive	1
HIV-1/HIV-2 Antigen/Antibody Immunoassay, CMIA HIV Ag/Ab Combo Interpretation	Reactive This is a screening test. Refer to the HIV-1/HIV-2 Antibody Differentiation Immunoassay for additional information.	2
HIV-1/HIV-2 Antibody Differentiation Immunoassay, Geenius HIV-1/HIV-2 Antibody Differentiation Final Interpretation	HIV-1 Positive Positive for HIV-1 Antibodies. Laboratory Evidence of HIV-1 Infection is Present.	3

SAMPLE AND ANALYSIS NOTES

- The RPR (Rapid Plasma Reagin) is a nontreponemal qualitative test used to screen serum for syphilis. If reactive, the sample will be reflexed to have a quantitative titer and a treponemal antibody test performed.
- A reactive result does not distinguish between the detection of HIV-1 p24 antigen, HIV-1 antibody, or HIV-2 antibody. Test results should be interpreted in the context of all clinically relevant information. The performance of this test has not been evaluated in children less than two years of age.
- This supplemental assay is intended for use as an aid in the diagnosis of infection with HIV-1 and/or HIV-2 for specimens found to be repeatedly reactive by diagnostic screening procedures. The performance of this test has not been evaluated in children less than two years of age.

ANALYSIS INFORMATION

TEST

- Syphilis RPR, Flocculation
- HIV-1/HIV-2 Antigen/Antibody Immunoassay, CMIA
- HIV-1/HIV-2 Antibody Differentiation Immunoassay, Geenius
